

# 21st ICHS Symposium on Infections in the Immunocompromised Host

## WELCOME

Dear Colleagues,

I am very pleased to confirm that the 21st ICHS Symposium on Infections in the Immunocompromised Host will be proceeding as a virtual event, taking place on 17 – 19 February 2021.

Now, more than ever, is the time for Infectious Diseases experts in high risk and vulnerable patient communities to come together and share our experience and knowledge. Our revamped program will seek to encompass the old, while planning our way ahead for the future.

The local organizing team here in Melbourne and the International Council have been busy planning, discussing and preparing for the new look ICHS Symposium. We are determined to retain the intimate collegiate environment that the Society has always fostered while embracing this new era of online conference platforms.

Follow us on twitter [@ICHS2021](https://twitter.com/ICHS2021) or visit our website [ICHS2021.org](https://ICHS2021.org) for updates and make sure to block out your diaries for the 21st ICHS Symposium, 17 – 19 February 2021!

I look forward to catching up with you all, and making new connections, at ICHS2021.

Sincerely,

**Prof Monica Slavin, MBBS MD, FRACP, FAAHMS**

President, International Immunocompromised Host Society

Head, Department of Infectious Diseases, Peter MacCallum Cancer Centre
