

## Short Bio

February 2021

Robin Avery MD, FIDSA, FAST

Robin Avery MD, FIDSA, FAST is Professor of Medicine (Infectious Diseases) at Johns Hopkins. After ID fellowship at Massachusetts General Hospital, she was an attending physician at Cleveland Clinic from 1993-2012, and at Johns Hopkins from 2012 onward. A past chair of the AST ID Community of Practice, she has served on committees for ISHLT, AST, IDSA, and ICHS. Her research involves viral infections, novel therapies for CMV, hypogammaglobulinemia, infections in incompatible kidney transplant recipients, and strategies for safer living after transplant. In 2017 she was named Best Consulting Physician at Johns Hopkins. In 2020, she has been active in COVID-19 clinical care for transplant and oncology patients, and COVID-19 epidemiologic studies and clinical trials.
